Premium Calcium Products

VERDE-CAL[®]

Calcitic Limestone

VERDE-CAL[®] G

Gypsum

VERDE-CAL[®] K^{PLUS}

Sulfate of Potash plus Gypsum

VERDE-CAL®

Calcitic Limestone

37% Calcium (Ca)

VERDE-CAL supplies Calcium to the soil in the form of Calcium Carbonate. Calcium Carbonate is beneficial in adjusting soil pH. Calcium Carbonate also helps to reduce Hydrogen, Sodium, and Chlorine in the plant and soil which aids in increasing essential nutrient absorption and translocation. Calcium Carbonate improves the soil structure through flocculation which helps increase water infiltration. **VERDE-CAL** helps to achieve optimal Calcium levels in the soil.

DIRECTIONS FOR USE

Application recommendations based on soil fertility tests should be followed.

Apply **VERDE-CAL** at 250 kg/ha (5 lb per 1,000 ft² / 220 lb per acre) at least twice per growing season or as needed. If desired, **VERDE-CAL** may be applied at 500 kg/ha (10 lb per 1,000 ft² / 435 lb per acre) once or twice per growing season.

VERDE-CAL® G

Gypsum

22.5% Calcium (Ca) 19% Sulfur (S)

VERDE-CAL G supplies Calcium to the soil in the form of Calcium Sulfate. Calcium Sulfate provides Calcium and Sulfur without adjusting or raising soil pH. Calcium Sulfate also aids in leaching excess Sodium and Magnesium. Calcium Sulfate improves the soil structure through flocculation which helps increase water infiltration. **VERDE-CAL G** helps to achieve optimal Calcium levels in the soil.

DIRECTIONS FOR USE

Application recommendations based on soil fertility tests should be followed.

Apply **VERDE-CAL G** at 250 kg/ha (5 lb per 1,000 ft² / 220 lb per acre) at 30 day intervals throughout the growing season or as needed. If desired, **VERDE-CAL G** may be applied at 500 kg/ha (10 lb per 1,000 ft² / 435 lb per acre) once or twice per growing season.

After irrigating Greens and Tees using effluent water, apply **VERDE-CAL G** at 500 kg/ha (10 lb per 1,000 ft² / 435 lb per acre) at 30 day intervals throughout the growing season or as needed.

VERDE-CAL® K PLUS

Sulfate of Potash plus Gypsum

15% Soluble Potash (K₂O)

7% Calcium (Ca)

2% Magnesium (Mg)

14.5% Sulfur (S)

4% Iron (Fe)

0.25% Manganese (Mn)

VERDE-CAL K PLUS is Sulfate of Potash blended with Gypsum to provide Potassium, Magnesium, Calcium, Iron, Sulfur and Manganese. The Calcium in **VERDE-CAL K PLUS** increases soil Calcium without adjusting or raising soil pH. The Calcium also aids in leaching excess Sodium and Magnesium. Calcium improves the soil structure through flocculation which helps increase water infiltration. **VERDE-CAL K PLUS** helps to achieve optimal levels of many essential nutrients in the soil.

DIRECTIONS FOR USE

Application recommendations based on soil fertility tests should be followed.

Apply **VERDE-CAL K PLUS** monthly or bi-weekly.

Apply **VERDE-CAL K PLUS** at 250 kg/ha (5 lb per 1,000 ft² / 220 lb per acre) at 30 day intervals throughout the growing season or as needed.

When applying bi-weekly, apply **VERDE-CAL K PLUS** at 195 kg/ha (4 lb per 1,000 ft² / 175 lb per acre) every two weeks throughout the growing season or as needed.
